Every great achiever is inspired by a great mentor!

We are introducing “Women Mentoring Program 2018” which is geared towards providing support to our female students to make a smooth transition into the labour market by pairing them with a mentor from Shell. The program provides opportunities for students to observe, interact with, and learn from outstanding established leaders.

Do you value the feedback from a partner in the corporate world to help you navigate your future step into the industry market? Are you looking for a mentor who takes your cultural identity and experience into account? Then sign up now for the 2018 Mentoring Program.
